

Call for Papers

LightSec is a cryptographic workshop in cooperation with IACR that aims to promote and initiate novel research on the security & privacy issues in lightweight applications, due to the associated constraints on metrics such as available power, energy, computing ability, area, execution time, latency, code size, and memory requirements. As such applications are becoming ubiquitous, definitely providing an immense value to the society, they are also affecting a greater portion of the public & leading to a plethora of economical & security and privacy related concerns. Conference website: <http://lightsec16.aksaray.edu.tr/>

Authors are encouraged to submit original papers related to lightweight cryptography. Submissions must not substantially duplicate work that any of the authors has published in a journal or a conference/workshop with proceedings, or has submitted/is planning to submit before the author notification deadline to a journal or other conferences/workshops that have proceedings. Accepted submissions may not appear in any other conference or workshop that has proceedings. Each paper will be evaluated by at least three referees in a double-blind peer review process. The post-proceedings of LightSec 2016 will be published in Springer's LNCS.

Important Dates

Submission deadline	June 24 June 30, 2016, 23:59 GMT
Acceptance notification	July 29, 2016
Final version due	August 19, 2016
Workshop dates	September 21-22, 2016

Program Committee

Onur Aciicmez, Samsung (USA)
Toru Akishita, Sony Corporation (Japan)
Roberto Avanzi, Qualcomm (Germany)
Elif Bilge Kavun, Infineon (Germany)
Lejla Batina, Radboud University (Netherlands)
Andrey Bogdanov (Chair), DTU (Denmark)
Tim Güneysu, Univ. of Bremen (Germany)
Pascal Junod, HEIG-VD (Switzerland)
Orhun Kara, TUBITAK BILGEM (Turkey)
Miroslav Knezevic, NXP (Belgium)
Gregor Leander, Ruhr Univ. Bochum (Germany)

Albert Levi, Sabanci University (Turkey)
Amir Moradi, Ruhr Univ. Bochum (Germany)
Shiho Moriai, NICT (Japan)
Maria Naya-Plasencia, INRIA (France)
Ventzislav Nikov, NXP (Belgium)
Thomas Peyrin, NTU (Singapore)
Francesco Regazzoni, ALaRI (Switzerland)
Matthew Robshaw, Impinj (USA)
Erkay Savas, Sabanci University (Turkey)
Ali A. Selçuk, TOBB Univ. of Econ. & Tech. (Turkey)
Kerem Varici, UCL (Belgium)
